“Paul was very attentive and caring when he taught me. He has helped me gain confidence with my speaking and helped me with my posture and breathing techniques. He gave me exercises to do at home to help me get the most out of my time with him and sent me tips and checked up on me through email outside of class time as well. He is a great teacher and mentor and I would highly recommend him to anyone looking for coaching within the services that he offers. Thanks again Paul!” Alyssa Heard.
