

USA SPORTS PRESENTATION

“Paul Parker assisted my transition from American Football into professional acting by bridging the gap of understanding. Understanding the fundamentals of on-camera training is critical in forging the careers actors aspire to. Finding the truth in the eyes, the simplicity of real thought and an honest reaction to what is heard are the principles that Paul allows you to discover, in your own time. I recommend, as an athlete looking for a voice beyond the jersey, that you trust your natural instincts and commit to a craft that can be understood through what Paul Parker teaches”. – **Karnell Matthews.**
